1ST AUGUST, 1908.

WHEREAS it is expedient to reconstitute the University of Durham, and for that purpose to appoint a statutory commission :

Be it therefore enacted by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same as follows :—

APPOINTMENT OF COMMISSIONERS.

1.—(1) There shall be a body of commissioners styled the University of Durham Commissioners, and consisting in the first instance of the following persons, namely :—

His Grace Henry George Percy, Duke of Northumberland, K.G., P.C., D.C.L., F.R.S. ;

The Right Reverend Archibald, Lord Bishop of Exeter, D.D., LL.D., sometime Vice-Chancellor of the University of London ;

The Right Honourable Henry De Vere Vane, Baron Barnard, D.C.L. ;

The Right Honourable Sir Francis Mowatt, G.C.B., P.C., LL.D., sometime Permanent Secretary of His Majesty's Treasury ;

Joseph Larmor, Esquire, LL.D., D.C.L., D.Sc., M.A., F.R.S., Lucasian Professor of Mathematics in the University of Cambridge ;

and it shall be lawful for His Majesty to appoint a secretary to the commissioners.

(2) If and whenever any vacancy occurs among the commissioners, it shall be lawful for His Majesty the King to appoint a person to fill the vacancy ; but the name of every

person so appointed shall be laid before both Houses of Parliament within ten days after the appointment if Parliament is then sitting, or, if not, then within ten days after the next sitting of Parliament.

(3) The commissioners may appoint or employ such persons as they may think necessary for the execution of their duties under this Act, and may remove any person so appointed or employed.

DURATION AND PROCEEDINGS OF COMMISSIONERS.

2.—(1) The powers of the commissioners shall continue until the end of the year one thousand nine hundred and nine, and no longer; but it shall be lawful for His Majesty the King, from time to time, with the advice of His Privy Council, on the application of the commissioners, to continue the powers of the commissioners for such time as His Majesty thinks fit, but not beyond the end of the year one thousand nine hundred and eleven.

(2) The commissioner first named in this Act shall be the chairman of the commissioners; and, in case of his ceasing from any cause to be a commissioner, or of his absence from any meeting, the commissioners present at each meeting shall choose a chairman.

(3) The powers of the commissioners may be exercised at a meeting at which three or more commissioners are present.

(4) In case of an equality of votes on a question at a meeting, the chairman of the meeting shall have a second or casting vote in respect of that question.

(5) The commissioners shall have a common seal, which shall be judicially noticed.

(6) Any act of the commissioners shall not be invalid by reason only of any vacancy in their body; but, if at any time, and as long as, the number of persons acting as commissioners is less than five, the commissioners shall discontinue the exercise of their powers.

POWERS AND DUTIES OF COMMISSIONERS.

3.—(1) The commissioners shall make statutes regulating the constitution of the University of Durham, and the powers and duties of its various authorities and constituent bodies and the disposition of its existing property in general accordance with the scheme scheduled as an appendix to this Act, but subject to any modifications of detail which may appear to them expedient after considering any representations made to them by or on behalf of any body or person directly affected, or by or on behalf of any college or institution giving university or higher education established within the counties of North-

umberland, Durham, Cumberland, and Westmoreland, or by or on behalf of any public education authority within the same counties.

(2) The commissioners shall take such steps as are in their opinion best adapted for facilitating the making of such representations before any such statutes are framed, provided that no costs incurred in making any such representations shall be chargeable to the University.

(3) The commissioners shall make statutes regulating the conditions upon which colleges other than those at present connected with the University may become affiliated to it and regulating the procedure by which a college may become so affiliated, and shall provide in such statutes that any college within the counties of Northumberland, Durham, Cumberland, and Westmoreland the application of which for affiliation to the University may have been refused, may appeal to His Majesty in Council, and that upon such appeal His Majesty in Council shall have power to decide whether such application ought or ought not to be granted, and if His Majesty in Council shall decide that such application ought to be granted, then such college shall become affiliated to the University, and shall be entitled to appoint so many representatives on senate as His Majesty in Council may determine.

(4) The commissioners shall make statutes providing that the technical college of the borough of Sunderland, as soon as it shall have satisfied such conditions as may before the passing of this Act have been specified by senate of the University as necessary to its being affiliated to the University in the faculty of science, shall thereupon become affiliated to the University in that faculty, and shall be entitled to appoint so many representatives upon Senate as the commissioners may determine.

The letter addressed by Senate of the University to the corporation of Sunderland under date the eighteenth day of June, nineteen hundred and seven, which is scheduled in an appendix to this Act, shall be construed as embodying the conditions above referred to.

(5) Statutes made under this Act shall have effect notwithstanding anything in any Act of Parliament, charter, Order in Council, statute of the Chapter of Durham, deed, or other instrument.

APPROVAL OF STATUTES.

4.—(1) When any statute has been made by the commissioners, a notice of its having been made, and of the place where copies of it can be obtained, shall be published in the

London Gazette, and the statute shall be laid as soon as may be before both Houses of Parliament, and shall not be valid until it has been approved by His Majesty the King in Council.

(2) If either House of Parliament, within forty days, exclusive of any period of prorogation, after a statute has been laid before it as aforesaid any provision not already contained in Schedule I of this Act, presents an address praying the King to withhold His assent from the statute or any part thereof, no further proceedings shall be taken on the statute or on the part thereof to which the address relates, but this provision shall be without prejudice to the making of a new statute.

(3) Any authority of the University of Durham as now existing, or any college in the University, or any other person or body directly affected by any such statute, may, within three months after the notification thereof in the *London Gazette*, petition His Majesty in Council to withhold his approval of the whole or any part thereof.

(4) His Majesty in Council may refer any such petition to a committee of the Privy Council, with a direction that the committee hear the petitioner personally or by counsel, and report specially to His Majesty in Council on the matter of the petition.

(5) Thereupon it shall be lawful for His Majesty, by Order in Council, either to declare his approval of the statute in whole or in part, or to signify his disapproval thereof in whole or in part but any such disapproval shall be without prejudice to the making of a new statute.

(6) The costs of any petition under this section may be regulated by the committee to which the petition is referred. No costs incurred under this section shall be chargeable to the University.

POWER TO COMMISSIONERS TO TAKE EVIDENCE AND TO MAKE RECOMMENDATIONS.

5.—The commissioners shall take evidence upon any of the matters hereby directed to be dealt with by them; and may, if they think fit, from time to time make a report or reports to His Majesty containing any recommendations which in their opinion ought to be made for the purpose of better enabling them to carry out any of the powers hereby entrusted to them.

POWER TO AMEND STATUTES.

6.—After the expiration of the powers of the commissioners, Senate of the University shall have power to make statutes for altering or supplementing any of the statutes made by the commissioners as far as they affect the Chancellor, Senate, or Convocation of the University or any advisory board thereof

or any matter at the time under his or their authority and in particular for providing for the representation on Senate of any college which may hereafter become affiliated to the University ; and the authority established under this Act for the government of the Durham division of the University shall have power to make statutes for altering or supplementing any of the statutes made by the commissioners as far as they shall at the time affect the Durham division alone : Provided as follows :—

(1) A statute made under this section shall be subject to the provisions of the foregoing sections, with the substitution only of Senate or of the authority aforesaid, as the case may be, for the commissioners :

(2) Before any statute (save any affecting the Durham division alone) is made under this section the draft thereof shall be communicated to Convocation, whose opinion thereon, if returned to Senate within two months, shall be taken into consideration. In computing this period of two months any part of the months of July, August, and September, shall not be counted :

(3) No statute made under this section shall alter the equality of representation in Senate of the Durham and the Newcastle divisions of the University, or alter any statutory provision made in direct pursuance of anything contained in Schedule I of this Act as far as it may have particular reference to property or finance, or to the faculty of theology, or to religious instruction.

1.—Senate shall annually pay to the council of the Durham colleges the sum of eight hundred and eighty pounds as an indemnity equivalent to the portion of the University's receipts from degree, examination, and convocation fees that has hitherto been applicable to purposes now to be transferred to the said council.

COMPENSATION TO DURHAM.

3.—Senate shall annually pay to the council of the Durham colleges the further sum of two hundred pounds as compensation equivalent to the value for the furtherance of purposes now to be

8.—Payments made in pursuance of clauses 3 and 4 of this article shall be made out of external income if and so far as Senate is in possession of such income.

CLAIM FOR DEFICIT.

SCHEDULE II.

THE LETTER FROM SENATE OF THE UNIVERSITY OF DURHAM TO THE CORPORATION OF SUNDERLAND.

Under date the eighteenth of June, nineteen hundred and seven, referred to in Section three (4) of this Act.

UNIVERSITY OF DURHAM,

JUNE 18TH, 1907.

GENTLEMEN,

In reference to your application of the 18th ult. for the affiliation of the Sunderland Technical College to the University of Durham, I am desired by Senate to inform you that the Committee appointed to consider the application, and to inspect the buildings and equipment of the college in connection with it have reported to Senate, and that Senate has adopted the conclusions of the report which are in the following terms:—

> "The Committee are of opinion that there is ample opportunity for the development of University teaching in Sunderland, and a prospect of it actually taking place in a near future, and that the technical college is well adapted to serve as a nucleus. At present, however, the college is not in a position to undertake the

curriculum the University requires in pure science, as it offers no teaching in geology, zoology, or botany. The Committee is of opinion that the college would be competent to undertake the University curriculum in engineering and electrical engineering if the following extension of its present resources could be provided :—

"A more extensive physical laboratory, more fully provided for the teaching of branches of physics other than electricity.

"A separate lecturer at the head of the department of electrical engineering, who should by preference be a practising electrical engineer.

"An extension of the laboratory accommodation and appliances for teaching electrical engineering.

"A more adequate engineering laboratory, provided with the necessary steam machinery."

I am further desired to inform you that it will give Senate sincere pleasure to hear further from you upon the matter, should you see your way to extend the resources of the college to meet the requirements which the University regards as essential for University teaching in engineering and electrical engineering ; or further so to extend the scope of the education carried on in your college as to cover the University curriculum in pure science, or in any of the other branches of applied science recognised by the University as qualifying for degrees.

Faithfully yours,

(Signed) W. K. HILTON,

(Registrar).

TITLE V.

OF THE STANDING AND EXERCISES REQUISITE FOR PROCEEDING TO DEGREES.

Section I. Of the Standing and Exercises requisite for proceeding to the Degree of Bachelor of Arts in litteris antiquis.*

1.—No grace for the degree of Bachelor of Arts *in litteris antiquis* shall be granted, unless the petitioner is a student in Arts and has kept six terms at least by residence, excepting as provided in clause 2 of this section.

* The Regulations in Section I will apply to Honour Students till further notice, but not to Pass Students entering at Durham in and after October, 1919.

Any student in Theology, who is recommended by his College, may petition the University that terms kept by him as a student in Theology may count as terms kept by him as a student in Arts, provided that he shall have passed the examination appointed for the admission of students in Arts, and that he shall not be admissible to the Final Examination for the degree of Bachelor of Arts unless he has passed the First Public Examination, and has subsequently kept three terms at least as a student in Arts.

2. No grace for the degree of Bachelor of Arts *in litteris antiquis* shall be granted unless the petitioner has passed two public examinations, excepting as provided for in the following paragraphs and in Clause 4, paragraph 7. The first of these shall be for students who have kept three terms at least; the second for such as have passed the first and have subsequently kept three terms at least in Arts.

No candidate for Honours shall be admissible to the Second Public Examination until he has passed the First Public Examination for B.A. *in litteris antiquis*, and has kept six terms in attendance on Honour Lectures for the Second Public Examination.

Candidates for Honours in the First Public Examination must not have exceeded the standing of three terms from Matriculation or other qualification as students in Arts, except as provided in the last paragraph of this clause. Except as therein provided, candidates for Honours in the Second Public Examination must not have exceeded the standing of nine terms from Matriculation or other qualification as students in Arts, unless they have already obtained Honours in some school of the Second Public Examination; in which case they may be candidates for Honours in another school of the Second Public Examination, provided they have not exceeded the standing of fifteen terms from Matriculation or other qualification as student in Arts, and that they have attended lectures during at least three terms in the subjects of examination.

Any person who has completed a course of study and examinations qualifying him for the Licence in Theology at one of the following Theological Colleges:—St. Aidan's, St. Augustine's, Burgh, Chichester, Cumbrae, Dorchester, Edinburgh, Gloucester, Highbury, Islington, Jamaica, St. John's (Armidale, N.S.W.), Lichfield, Lincoln, Moore College (Sydney), Queen's College (St. John's, Newfoundland), Salisbury, Selwyn College (Dunedin), Truro, Warminster, Bishop Wilson School (Isle of Man), the Theological Department of King's College, London, or the Theological Department of Queen's College, Birmingham, shall be allowed to count the final examination of his College in lieu of the first public examination, and shall be admissible to the final examination for the degree of Bachelor of Arts after he has kept three terms at least by residence as a student in Arts in Durham. Such terms must include a Michaelmas, an Epiphany,

and an Easter Term. In order to keep terms, such a student must have been admitted to the Licence in Theology, either before or in the course of his first term of residence as a student in Arts.

Students in any of the Theological Colleges specified in the preceding paragraph, provided that the course of study and instruction therein be approved by the Council of the Durham Colleges, shall be allowed to proceed to the degree of B.A. under the following conditions: (*a*) they shall pass the Matriculation Examination of the University for admission as Students in Arts or some equivalent examination and be duly registered by the University as Matriculated Students in Arts. (*b*) They shall subsequently keep six terms of residence at their Theological College. (*c*) They shall then be eligible to enter for the First Public Examination in Arts. (*d*) After having passed the First Public Examination in Arts, they shall keep three terms in Arts at Durham, and be eligible to enter for the Pass Final Examination for the degree of B.A. *in litteris antiquis*. Provided that students proposing to proceed to a degree in Honours *in litteris antiquis* shall keep six terms at Durham after passing the First Public Examination in Arts, and shall not be deemed to be over standing for Honours if they have not exceeded the standing of six terms after passing the First Public Examination in Arts.

3. The first of these examinations shall be conducted by three examiners at least. The subjects and books to which it shall be directed shall be fixed by Senate eleven months at least before its commencement; the subjects and books fixed for candidates for Honours being distinguished from the subjects and books fixed for other students.

Everyone admitted to this examination shall be required to prove his knowledge of Scripture History, of one Gospel in the Greek (or, in the case of conscientious objectors, in alternative subjects to be provided by Senate), of three Greek Plays, and six books of Virgil, or of equivalent portions of Greek and Latin authors, *melioris ævi et notæ*, and of one at least of such other subjects as Senate shall from time to time determine. Candidates for Mathematical Honours shall be required to prove their knowledge of only one of the three Greek Plays, or its equivalent.

All those who satisfy the examiners shall receive certificates, and the candidates for Honours shall be classed according to their attainments. The number of classes shall be determined by the examiners, but the order of the names in each class shall be alphabetical.

4.—The Second and Final Examination shall be conducted by three examiners at least. Everyone who is admitted to it shall be required to prove his knowledge of the Evidences of Religion

(Natural and Revealed), of one Gospel, and of the Acts of the Apostles in the Greek, except those who offer special Theological Subjects as provided in the following paragraphs. In the case of conscientious objectors, however, alternative subjects may be provided by Senate.

Students not candidates for Honours, who offer the Evidences, one Gospel, and the Acts of the Apostles, shall in addition be required to prove their knowledge of one Greek and one Latin book, *melioris ævi et notæ*, approved by Senate, and of one at least of such other subjects as Senate shall determine. Particulars respecting these subjects shall be published by Senate eleven months at least before the Examination.

Candidates for Honours, who offer the Evidences, one Gospel, and the Acts of the Apostles, shall in addition be examined in such subjects and books in Classical and General Literature, and Mathematical and Physical Science, as shall have been fixed by Senate eleven months at least before the examination; they may be examined also in other subjects and books selected by themselves, provided these subjects and books shall have been submitted to Senate and approved by it six months at least before the examination. No Licentiate in Theology shall become a candidate for Honours in the Final Examination for the Degree of Bachelor of Arts until he has passed the First Public Examination in Arts.

Candidates for Classical Honours only, need not be examined in Mathematics, nor candidates for Mathematical Honours only in Classics. Every candidate for Classical Honours may be examined both ***vivâ voce*** and on paper.

The Examination for Mathematical Honours shall be divided into two parts, as follows:—Part I: Euclid, Geometrical Conics, Algebra, Trigonometry, Analytical Plane Geometry, Elementary Mechanics and Hydrostatics, Geometrical Optics and Plane Astronomy. [The use of the Differential and Integral Calculus is not permitted in this part of the Examination.] Part II: Differential and Integral Calculus, Differential Equations, Analytical Geometry of three dimensions, Newton's *Principia* i—iii, and any of the higher portions of the subjects of Part I. The Examiners shall have power to excuse from examination in the Classical Portion of the subjects for the Pass degree those Candidates who, having failed to obtain Honours, yet have shown sufficient knowledge of the subjects of Part I.

Students not candidates for Honours who have passed either the First Public Examination in Arts, or the Final Examination in Letters, and have subsequently kept three terms at least, may offer, instead of the above subjects, to be examined in such subjects mainly Theological as Senate may from time to time determine, provided that they shall be required to prove their

nowledge of one Greek and one Latin book, *melioris notae*, approved by Senate, unless they offer a specified portion of the Hebrew text of the Old Testament, in place either of the Greek or of the Latin Book. Particulars respecting the subjects shall be published by Senate eleven months at least before the Examination.

Candidates for Honours in Theology shall be examined in such books of the Old and New Testament in the original Tongues, and such other Theological Subjects as shall have been fixed by Senate eleven months at least before the Examination.

All who satisfy the examiners shall receive certificates. For those who are judged worthy of Honours there shall be three separate classifications, one for such as have distinguished themselves in Classical and General Literature, one for such as have distinguished themselves in Mathematical and Physical Science, and one for those who have distinguished themselves in Theology. In each of these classifications there shall be four classes; the examiners being at liberty to leave any one or more of these classes vacant. Thus the Class Paper will be drawn up according to the form annexed :—

The conditions under which students, not candidates for Honours, shall be held to have passed with distinction shall be determined by Senate.

Candidates for the degree of B.A. *in litteris antiquis* may offer Military Science as an extra subject, and, if they satisfy the examiners, they shall receive a special certificate to that effect.

In cases where a candidate for Honours in the Final Examination for the Degree of B.A. is required to satisfy in a paper or papers of a Pass Standard, he shall be permitted to do so (without prejudice to his place on the Class List) at an Examination subsequent to that for which he presents himself for Honours, provided that he shall not be qualified to proceed to the degree until he has satisfied the Examiners in the pass papers.

5. In all cases in which an undergraduate is admitted from another University, or a student of this University, not originally a student in Arts, becomes a student in Arts, such student shall be required to keep three terms by residence as a student in Arts before he is admitted to the Final Examination for the degree of B.A.

6. Students of the University of Durham College of Medicine, or of Armstrong College, at Newcastle-upon-Tyne, may petition the Council of the Durham Colleges that terms kept by them at either of these Colleges, equivalent in duration to three terms kept by students in Arts at Durham, may count towards the degree of B.A. *in litteris antiquis*, provided that they shall have passed the First Examination appointed for students in Arts, at the beginning of the second year, and that they shall not be admitted to the Final Examination for the degree of B.A. *in litteris antiquis* unless they have kept three terms at least by residence as students in Arts at Durham.

REGULATIONS (V, II).

Section II.—Of the Standing and Exercises requisite for proceeding to the Degree of Bachelor of Arts at Durham or Newcastle in the case of students not candidates for Honours.

1. No grace for the Degree of Bachelor of Arts at Durham *or* Newcastle shall be granted unless the petitioner has kept nine terms as a student in Arts and passed an Intermediate Examination, a Second Year Examination, and a Final Examination, except as provided in the following paragraphs of this Section.

5. The Council of the Durham Colleges may dispense any student from actual residence in Durham and attendance upon Lectures for a period of not exceeding three terms: but no student shall be eligible to proceed to the degree of Bachelor of Arts unless he is of the standing of nine terms from Matriculation. A student thus dispensed from residence may be allowed to offer himself as a candidate for a Final Examination in six subjects to be prescribed by Senate (not less than four of which shall be taken at one and the same examination) in lieu of the Second Year and Final Examinations.

6. Students who have passed the Matriculation Examination and subsequently kept six terms at Durham or at an associated Theological College and have passed both parts of the Examination for a licence in Theology and have been duly granted the Title of Licentiate in Theology by Convocation, may count the terms so kept in Theology in lieu of six of the terms required for the Degree of B.A., and the examinations passed for the L.Th. in lieu of the Intermediate and Second Year Examinations. Such candidates will, however, be

* Candidates for the degree of B.A. other than *in litteris antiquis* may offer Military Science as an extra subject, and, if they satisfy the examiners, they will receive a special certificate to that effect.

Candidates for Honours shall be required to pass the Matriculation Examination before beginning to keep terms, and shall not be eligible for the Intermediate Examination until they have kept three terms (except as provided in clause 3 of this section) nor for the Final Examination until they have kept six terms, at Newcastle nine terms, after passing the Intermediate Examination. They must in no case have exceeded the standing of four years from the Intermediate Examination.

Candidates who have been admitted to a degree in any other Faculty (save Music) shall be excused the first year of residence and the Intermediate Examination.

Each of these examinations shall be conducted by examiners appointed annually by Senate; and the special books and subjects to which it is directed shall be fixed by Senate eleven months at least beforehand.

Candidates for Honours in Arts who have passed the Higher School Certificate Examination, having previously passed the examination for Matriculation, or an equivalent, may be excused from the first year of study and from the Intermediate Examination in Arts, provided that in the Higher Certificate Examination they qualify in two languages, one of them being an ancient language, and that they have obtained distinction in one of the subjects in which they propose to read for Honours and further have passed with credit in at least one subject in the principal group in which they were examined. One of the two languages may be taken as a subsidiary subject and candidates shall be allowed

to qualify in the subsidiary language at a subsequent examination for the Higher Certificate, provided that they do so at least two years before the Final Examination of their Honours Course. Candidates who propose to read for Honours in a subject not included in the Higher School Certificate Examination shall be deemed to have satisfied the above conditions if they have obtained distinction in such subject as may be prescribed by the Board of the Faculty of Arts, upon the recommendation of the teachers concerned. No candidate thus excused the Intermediate Examination shall be admitted to the Degree of Bachelor of Arts unless he shall have pursued a course of study in the University for not less than three academical years.

At the Intermediate Examination a candidate for Honours in Mathematics shall be examined in the mathematical subjects provided for First Year Mathematical Honours for candidates for the Degree of B.A. *in litteris antiquis*, and shall further satisfy the examiners in such subjects of the pass examination for the Degree of B.A. other than *in litteris antiquis* as Senate may from time to time prescribe.

At the Final Examination such a candidate shall be examined in the Mathematical subjects provided for the Final Examination for Mathematical Honours for the degree of B.A. *in litteris antiquis*. He shall further be required to satisfy the examiners in Religious Knowledge (or an alternative subject) as prescribed for pass candidates for the degree of B.A. other than *in litteris antiquis*.

Such candidates shall, in the Final Examination, take Religious Knowledge, Parts I and II (or alternative subjects) at one time, and all their Mathematical subjects at another time: but no candidate may offer himself for the former until he has attended lectures for three terms on the subjects in question, nor for the latter until he has for six terms attended lectures for Final Mathematical Honours.

Candidates for Honours in the other subjects shall take the Intermediate Examination as prescribed for pass candidates; but students who have resided for three terms and have passed the First Public Examination for the degree of B.A. *in litteris antiquis* may count this examination in lieu of the Intermediate Examination.

At the Final Examination such candidates shall be examined for Honours in the two subjects selected, and Honours shall be awarded on the results of the two examinations, taken together. Candidates for Honours in this examination shall not have exceeded the standing of four years from Matriculation, and shall not have exceeded three years from the time of passing the Intermediate Examination or the examination accepted as equivalent.

In cases where a candidate for Honours in the Final Examination for the Degree of B.A. is required to satisfy in a paper or papers of a Pass Standard, he shall be permitted to do so (without prejudice to his place on the Class List) at an Examination subsequent to that for which he presents himself for Honours, provided that he shall not be qualified to proceed to the degree until he has satisfied the Examiners in the pass papers.

3.—At NEWCASTLE Candidates for the Final Examination in Honours shall be required to have passed the Intermediate Examination before entering upon Honours study. The course for the degree in Honours shall occupy not less than three and not more than four years from the time of passing the Intermediate Examination.

Candidates for Honours who elect to spend the last part of their course in original research, shall be allowed to pass the Intermediate Examination before entering Armstrong College, and to present themselves for an examination in Honours at the end of their second year of study. But no candidate shall proceed to a degree in Arts before the end of the third year of study.

No candidate for Honours shall be required to take any part of the Pass Curriculum other than that prescribed for the Intermediate Examination.

2.—There shall be three Secretaries of Examinations, one for the Durham Colleges, one for the College of Medicine, and one for Armstrong College. They shall be nominated by the respective Colleges and shall be appointed and paid by Senate. They shall hold office for a period of five years and shall be eligible for re-election.

The name in full of every student offering himself for any public examination and of his College (if any) must be signed by himself or some responsible person to the Secretary of Examinations for the Durham Colleges, or the College of Medicine, or Armstrong College, as the case may be, at such time before the commencement of the examination as the College in question shall determine.* An account, in writing, of the books or subjects selected by him, when any option is allowed, together with all necessary certificates, shall be delivered to the Secretary of Examinations at the same time.

Every student, on his name being received by the Secretary of Examinations, shall pay for any public examination the fee fixed for that examination by Senate, and the Secretary shall transmit the fees so received to the University Treasurer.

The Secretary of Examinations shall have printed an alphabetical list of those whom he admits to any public examination, and shall cause copies of it to be delivered to each of the examiners, and to be affixed on some public place or places appointed by Senate, seven days, or for examinations in the Faculty of Arts fourteen days, before the commencement of the examination.

Every student sending in his name after the time appointed shall pay such additional fee as Senate may determine.

No student may offer himself for examination after the list has been printed, unless he pay such additional fee as Senate may determine.†

Any student may withdraw his name from the list of those to be examined, provided he give notice to the Secretary of Examinations nine days before the beginning of the examination. In such a case the candidate may enter *either* at the next examination, *or* at the next examination but one (but not afterwards) without further payment.‡ Otherwise the fee which has been paid is forfeited, except in the case of examinations where special regulations exist.

3.—Any official entrusted with the duty of superintendence in a University examination may immediately suspend or dismiss from examination a candidate guilty of flagrant breach of the rules, but such action shall be immediately reported to one of the Proctors.

---

* For examinations in the Faculty of Arts at least six weeks before the beginning of the examinations.

† For examinations in the Faculty of Arts no late entries will be accepted.

‡ *In the Faculties of Arts and Theology*, the names of candidates who have withdrawn will be placed on the list for the next examination, and if such a candidate wishes to defer entering until the next examination but one he must give notice of withdrawal as provided above.

4.—All questions arising among the examiners as to the framing of questions, the rejection of candidates, or any other matter, shall be determined by a majority of votes, the examiner in the chair having a casting vote.

5.—Any student who, at any final honour examination, presents to the examiners a sufficient assurance of his being in ill-health shall, if the examiners so recommend, be deemed to have passed the examination, and his name shall be placed in a separate list, distinguished by the word "Aegrotant," or some similar title. The names which are placed in it shall be arranged alphabetically. No candidate whose name is placed in this list shall be deemed to have obtained Honours.

6.—The names of those who obtain certificates at any public examination shall be entered in a register, and the entry shall be attested by the signatures of the examiners. The examiners shall also draw up, for publication, lists of the successful candidates.

Section II.—Of Extraordinary Examinations.

1.—If a student has been kept away from any public examination by severe illness or other urgent cause, and shall satisfy Senate that it would be a great hardship for him to wait for the next ordinary examination, he may apply to Senate to grant him an extraordinary examination.

2.—The number of examiners shall be the same for this as for an ordinary examination. The examination itself shall not be less rigorous, but no honours shall be awarded.

3.—Not more than one extraordinary examination for the same class of students shall be granted within one academical year.

4.—Every student who is admitted to an extraordinary examination shall pay, on his name being received by the Secretary of Examinations, such fee as Senate shall from time to time determine.

5.—Those who pass any extraordinary examination shall be registered in the same book with those who pass the ordinary examination, but in such a manner as to be distinguished from them.

TITLE VIII.

OF AFFILIATION.

Section I.—Of the terms and conditions upon which Colleges and like institutions may be affiliated to the University.

1. No application of any College or like institution for affiliation to the University shall be entertained until evidence has been adduced (as required by Statute 137) that its members

are incorporated by Royal Charter, or that provision has been otherwise made (to the satisfaction of the Senate of the University of Durham) for its establishment on a permanent and efficient footing and for its government.

No application shall be entertained unless it sets forth the facilities which the teaching staff of the College or like institution affords for the adequate training of students in subjects set for examination by the University; nor unless it shows to the satisfaction of Senate that such College or like institution is equipped with such buildings, laboratories, machinery or other appliances as may be necessary for the proper instruction of students in the subject of the Faculty or Department in respect of which the application for affiliation is made.

No application shall be entertained unless it states the Faculty or Department in respect of which the application for affiliation is made.

2. The students of any College or like institution affiliated to the University in the way and under the authority prescribed by Statute 102 shall have their names placed on the register of the University as matriculated students thereof, provided that they shall have passed such matriculation examination as may be prescribed by the Senate.

Students so matriculated shall be admissible to the exercises and public examinations required for proceeding to degrees, licences and academical rank in the Faculty or Department in which they have matriculated, provided they shall have fulfilled to the satisfaction of Senate such conditions *inter alia* as to residence, attendance at lectures and conformity to discipline as are required of other students of the University so admissible.

Students who have fulfilled the prescribed conditions shall be proposed to Convocation for the degrees, licences, or academical rank for which a Proctor certifies that they have qualified.

3. The affiliation of any College or institution may be terminated at any time either by the University or by the authorities of the affiliated college or like institution by six months' notice on either side.

Section II.—Of the Affiliation of Codrington College, Barbados, and Fourah Bay College, Sierra Leone, to the University.

1.—Students of Codrington College, Barbados, and Fourah Bay College, Sierra Leone, may have their names placed on the register of the University as matriculated students of the same,

provided that the Principal of their College, or other person authorized to act in his behalf, shall have certified that they have passed an examination similar to that required for the admission of students in the several faculties in the University of Durham; and the aforesaid Colleges shall be accounted affiliated Colleges of the University of Durham.

2. Students of the affiliated Colleges, having been so matriculated, shall be admissible to the exercises and public examinations required for proceeding to degrees, licences, and academical rank in the several faculties, provided that they shall have forwarded certificates of having fulfilled the same conditions as to residence, attendance at Lectures, and conformity to discipline in their own College, as are required from other students of the University so admissible, terms of residence being counted from the time of passing the Admission Examination of their own College.

3.—The Principals of the said Colleges shall forward to the Secretary of Examinations lists of students of their respective Colleges who are candidates for any examinations, together with the certificates required, in time for them to be received at Durham six weeks at least before the commencement of the examinations at Durham. The examination papers shall be sent to the Principals of the Colleges, in sealed packets, by the last mails, or last mails but one, that leave England previously to the commencement of the examination at Durham. The papers so sent shall be set to the candidates as nearly as possible on the days of the examination at Durham, and the answers to them returned, unread, as soon as possible after the conclusion of the examination to the Secretary of Examinations (who shall transmit them to the examiners), together with a certificate signed by the Principal of each College, or the person acting in his behalf, that the examination has been duly conducted, and the above-named conditions complied with.

4.—The examiners, after examining the papers, shall issue and publish in the usual manner supplemental lists of those who have passed the examination, and of those who have been adjudged worthy of Honours; which lists shall be sent by the Registrar without delay to the respective Principals of the Colleges; and one combined list of all who have passed the examination in England, Barbados, and Sierra Leone, shall be inserted in the next issue of the *University Calendar*.

5.—All prescribed conditions having been fulfilled, graces for degrees, licences, or academical rank, shall be prayed in Convocation, in the usual manner, on behalf of students of the affiliated Colleges; and certificates of such graces, having been granted, shall be forwarded by the Registrar to the respective Principals of the Colleges; after the receipt of which the degrees, licences, or academical rank, for which graces have been granted

may be conferred by their Lordships the Bishops of the dioceses in which the affiliated Colleges are respectively situated, as Visitors of the same, or by a Deputy Visitor, acting under commission from the Chancellor.

6. The above arrangements may be terminated at any time either by the University or by the authorities of each affiliated College on notice of six months at least being given beforehand.

Anyone who previously to Michaelmas Term, 1875, has completed his course of study and examinations at Codrington College, Barbados, and has produced to Senate satisfactory testimonials of character, shall be admissible to the Final Examination for the degree of Bachelor of Arts, and, having passed that examination, to the degree of Bachelor of Arts.

TITLE IX.

OF ADMISSION FROM OTHER UNIVERSITIES.

No person shall be allowed to count terms which have been kept in another University, unless his application be brought before Senate by the Council of the Durham Colleges, or of the College of Medicine, or of Armstrong College, and approved by Senate; except so far as is otherwise provided in Title V, Section IX, § 2, and Title V, Section X, § 5 (*d*), (*e*).

TITLE X.

OF MEMBERSHIP OF CONVOCATION.

All graduates of the University, qualified under Statute 35 for membership of Convocation, shall be deemed to have fulfilled the necessary conditions if they have continued without interruption to be members of the University from the date of their admission to the degree by which they claim their seat, and either have paid a fee of two pounds, or are members of the staff.

Female graduates of the University shall be admitted to membership of Convocation on the same terms and conditions as men.

TITLE XI.

OF DEGREES CONFERRED WITHOUT EXAMINATION.

Any person admitted to an Honorary degree under the provisions of Statute 92, though having no claim to membership of Convocation, shall enjoy the rank and wear the dress of his degree, and shall have admission to the Library and Museums, under such restrictions as may be imposed from time to time. Honorary Degrees shall not be conferred *in absentia*, save in the case of degrees conferred *jure dignitatis*; but the names of persons resident abroad, for whom Honorary degrees have

been voted by Senate, may be proposed to Convocation for graces to enable such degrees to be conferred on them at Collingwood or Fourah Bay, in the same manner as ordinary degrees.

Members of the teaching staff admitted to degrees without examination under the provisions of Statute 93 shall enjoy the full rights and privileges belonging to the degrees conferred upon them; but any right such a person may have to membership of Convocation in virtue of such a degree shall cease when he ceases to be a member of the teaching staff.

No person admitted to a degree without examination, by vote of Convocation, shall proceed from a degree thus conferred to any other degree.

TITLE XII.

OF THE CHANCELLOR.

When a vacancy shall occur in the office of Chancellor, the Vice-Chancellor shall, within a month of the occurrence (the months of July, August, and September excepted), summon a special meeting of Senate, in order that Senate may nominate a fit and proper person for the post of Chancellor.

No nomination shall be submitted to Senate to vote upon unless the nomination be made by a member of one division of the University and seconded by a member of the other division of the University.

If more than two persons be nominated, there shall first be taken a preliminary vote; and no name shall be submitted to Convocation which has not received an absolute majority of the votes of those present and voting.

A meeting of Convocation shall be summoned by the Vice-Chancellor within a month (the months of July, August, and September excepted) of the special meeting of Senate, and a motion shall be submitted to Convocation by the Vice-Chancellor that the person nominated by Senate be appointed Chancellor by Convocation.

If the person nominated by Senate be not appointed by Convocation, the Vice-Chancellor shall forthwith summon a special meeting of Senate for the purpose of nominating (in the way above set forth) a fit and proper person.

When a person nominated by Senate has been appointed by Convocation, the Senate shall make such arrangements and prescribe such ceremony for admitting to the office of Chancellor the person thus nominated and appointed as shall befit the dignity and solemnity of the occasion.

TITLE XIII.

OF THE PROCTORS.

1.—The Proctors shall be appointed at the final Convocation in Easter Term, and shall come into office at the first Convocation in Michaelmas Term.

One Proctor shall be nominated from the Durham Division, and one from the Newcastle Division of the University.

2.—On coming into office each Proctor shall nominate two Pro-Proctors one of whom shall take his place in case of his absence; but a Pro-Proctor nominated by either may act for the other. Each Proctor and Pro-Proctor shall make the declaration provided in the Standing Orders.

3.—In addition to their statutory duties, the Proctors shall see that nominations of the necessary examiners for University examinations are submitted to Senate, and shall certify to the University Treasurer the amount due to each Examiner. They shall also decide, on an emergency, any question connected with a University Examination which may be referred to them. The Durham Proctor may act alone in respect of an examination held at Durham, and the Newcastle Proctor in respect of an examination held at Newcastle; but it shall be competent for either to assist, or act in the place of the other, when requested to do so by his colleague.

4.—The Proctors shall examine the claims of candidates for degrees, and shall report to Convocation, on behalf of Senate, whether they have fulfilled the necessary requirements.

The names of those candidates who are students of the Durham Division shall be proposed to Convocation by the Durham Proctor, and of those who are students of the Newcastle Division by the Newcastle Proctor.

CONSTITUTION OF THE COMMITTEE OF FINANCE.

LINDSAY SCHOLARSHIP.

This Scholarship was founded by Mr. Ralph Lindsay, a native of St. Oswald's in the City of Durham.

Regulations for the Lindsay Scholarship.

1. The above-mentioned Foundation and its endowment are administered by the Council of the Durham Colleges (hereinafter called the Trustees), in conformity with the provisions of a Scheme, dated June 19th, 1909, under the name of the Ralph Lindsay Scholarship, hereinafter called the Foundation.

2. After payment of the expenses of administration, the Trustees shall apply a yearly sum of not less than £40, and not more than £60, in the maintenance of a Scholarship, to be called the Lindsay Scholarship, tenable at Durham University, and to be awarded to boys, who—

(i) are and have for not less than three years been in attendance at Durham Grammar School, and

(ii) either (*a*) were born in the dioceses of Durham or Newcastle, or (*b*) are of kin to the Founder, Ralph Lindsay.

Provided that any Scholarship for which there is no candidate qualified under both the foregoing paragraphs (i) and (ii) hereof, who on examination is adjudged worthy to take it, may for that turn be awarded to a candidate qualified under paragraph (i) only. Each Scholarship shall be awarded for a period of three years.

The Trustees may in any year apply any accumulations of income of the Foundation in increasing the value of the Scholarship, provided that the yearly value of the Scholarship shall not exceed £60.

3. Within the limits fixed by this Scheme, the Scholarship shall be freely and openly competed for, and shall be awarded for merit on the result of such examination, and under such regulations and conditions *as the Trustees think fit*, provided that, in the award, preference shall be given for proficiency in classics. Any Scholarship, for which there is no duly qualified candidate who, on examination, is adjudged worthy to take it, shall for that turn not be awarded.

4. The Scholarship shall be tenable only for the purposes of education. If the holder of a Scholarship is, in the judgment of the Trustees, guilty of serious misconduct or idleness, or fails to maintain a reasonable standard of proficiency, or wilfully ceases to pursue his education, the Trustees may deprive him of the Scholarship, and for this purpose may act on the report of the proper authorities of the said University, or on such other evidence as the Trustees think sufficient. Under this clause the decision of the Trustees shall be final in each case.

5. No boy shall, by reason of any exemption from attending prayer or religious worship, or from any lesson or series of lessons on a religious subject, be deprived of any advantage or emolument out of the endowment of the Foundation, to which he would otherwise have been entitled.

6. The Scholarship is awarded on the results of the Matriculation Examination.

ELLERTON SCHOLARSHIP.

The Rev. Edward Ellerton, D.D., Fellow of Magdalen College, Oxford, by deed dated February 22nd, 1848, founded a Scholarship now of the value of about £25 a year, for natives of the North Riding of York, tenable in ordinary cases for three years.

Deed of Foundation.

In gratitude to Divine Providence, I am desirous of assisting some of my compatriots, natives of the North Riding in the County of York, by founding for their benefit in the University of Durham a Scholarship of £21 per annum, tenable in ordinary cases for three years.

[1] Of University College.

The qualifications of the candidates shall be the following:

1. That they be natives of the North Riding of Yorkshire.

2. That they be sons of parents who are members of the Church of England.

3. That they shall have received their education at Richmond Grammar School.

4. That they shall not exceed their twentieth year on the day of their first election.

5. That they be in need of such assistance.

But if no candidate appear from Richmond School, or if such candidate be declared by the examiners to be incompetent, a native of the North Riding of Yorkshire educated elsewhere is to be elected Scholar. And if more candidates than one should appear, either from Richmond School or of those who have had their school education elsewhere, I desire that the best scholar be elected.

I consider it most safe to elect the scholar only for one year; and, if his conduct be satisfactory, to repeat the election at the commencement of the second year and third year; that if a youth elected scholar should, in the judgement of the Senate of the University, have forfeited his claim to re-election by indolence or immorality, he may be removed; and I hereby authorize and request the University to elect another scholar† in the room of him who has been found unworthy; and the scholar so elected, if he approve himself to the University by his diligence as a Student and his exemplary life as a Christian, shall enjoy the Scholarship for three years, having been three times elected, and at the end of the third year shall vacate it, to make room for another possessing all the requisite qualifications enumerated above.

[illegible] March 15, 1849.

The event contemplated, that there may be no native of the North Riding a candidate for the Scholarship founded by me is possible, but not probable; but such a contingency should be provided for.

If such a case actually arise, I wish that the Scholarship should be thrown open to natives of the East and West Ridings of the county *pro istâ vice*, and that the person elected, if his conduct be satisfactory to the University, should enjoy it after three elections for three years.

[illegible] Oxford Statutes, [illegible] be declared incompetent to profit by the lectures he will attend, he may be declared incompetent.

† An extraordinary election of this sort would, of course, be communicated to the Masters of Richmond School, that [illegible] if he have any boys sufficiently advanced to fill it; if not, the election must be made of natives of the North Riding educated elsewhere.

Regulations for the Ellerton Scholarship.

1. The Ellerton Scholar shall, in ordinary cases, be elected by the Council of the Durham Colleges in the Michaelmas Term of each year.

2. Each candidate, before he is admitted to examination, must submit to the Council testimonials of character and certificates to show that he possesses the qualifications specified in the Deed of Foundation.

3. The examination for admission to the Scholarship shall be conducted by two or more Examiners, to be nominated by the Council.

The Examiners, being furnished with a list of the candidates, shall make to the Council a report of the proficiency of each.

4. The Ellerton Scholar will be required to keep his Terms and pursue his studies in the Durham Division as a Student in Arts.

5. The Council shall have authority to dispense with the keeping of not more than one Term of residence in the course of two years, and not more than two Terms of residence in the course of three years.

6. In such cases the Scholar shall receive only such portion of the proceeds of the Scholarship as may be due for the Terms he has kept.

The residue which may arise, either from this cause or from any other circumstance, shall be added from time to time to increase the value of the Scholarship.

7. The Council shall have power to alter and amend these Regulations from time to time, consistently with the Deed of Foundation.

1851 Exhibition Science Research Scholarships.

A limited number of the Scholarships are renewed for a third year where it appears that the renewal is likely to result in work of scientific importance.

Candidates are recommended by the governing bodies of the Universities and Colleges to which Scholarships are allotted and the recommendations are considered and decided upon by the Scholarships Committee.

The candidate must be a British subject.

The candidate must have been a *bona fide* student of Science in a University or College in which special attention is given to scientific study, for a term of three years.

The candidate shall be eligible for a Scholarship provided (1) that he has spent the last full academic year immediately prior to the time of nomination as a student in any faculty or scientific department of that institution by which he is nominated, or (2) that he has been a student of such institution for a full academic year ending within twelve months prior to the time of nomination and since ceasing to be such student has been engaged solely in scientific study.

The word "student" in the preceding regulation must be understood as comprehending one engaged in undergraduate or post graduate work.

The candidate must indicate high promise of capacity for advancing Science or its applications by original research. Evidence of this capacity is strictly required, this being the main qualification for a Scholarship. The most suitable evidence is a satisfactory account of research already performed and the Commissioners will decline to confirm the nomination of a candidate unless such an account is furnished, or there is other equally distinct evidence that he possesses the required qualification.

A candidate whose age exceeds 30 will only be accepted under very special circumstances.

A Scholarship may be held at any University in England or abroad, or in some other institution to be approved of by the Commissioners. Every scholar is, in the absence of special circumstances, required to proceed to an institution other than that by which he is nominated.

The principal work of a scholar must be a research in some branch of Science, the extension of which is important to the national industries.

Scholars are required to devote themselves wholly to the objects of the Scholarships, and are forbidden to hold any position of emolument.

Scholars are required to furnish reports of their work at the end of each year of the tenure of their Scholarships. At the expiration of each Scholarship the reports of the scholar are referred to an eminent authority on the subject treated of, who furnishes an opinion thereon to the Commissioners.

The Scholarship stipend is payable half-yearly in advance, but £25 is reserved from the fourth payment until the scholar has made a satisfactory final report.

[If and when a Scholarship is allotted to Armstrong College a notice will be put on the notice boards.]

1851 Exhibition Industrial Research Bursaries.

The Royal Commmissioners for the above may allot one or more Bursaries to Armstrong College annually.

The Scheme of Industrial Bursaries is designed for the assistance of young men who, after a course of training in a University or approved Technical College, desire to take up Engineering, Chemical, or other industrial work.

These Bursaries are intended, not to facilitate the continuance of Collegiate studies by means of post graduate work, but to enable suitable applicants to tide over the period between their leaving College and obtaining remunerative employment in industry.

The value of the Bursary will depend on the circumstances of the holder, but will as a rule not exceed £150 a year.

A Bursar will be elected in the first instance for one year, but the tenure of his Bursary will ordinarily be prolonged a second year provided that the Commissioners are satisfied with the work done by the Bursar during his first year.

In special circumstances a Bursary may be renewed for a third year.

The appointments to the Bursaries will be made by the Commissioners from among candidates recommended by the authorities of certain selected Universities and Technical Schools. In the consideration of these recommendations great weight will be given to evidence that a candidate has the practical ability likely to lead to his advancement in industrial work: academic success alone is not a sufficient recommendation.

The candidate must be a British subject under the age of 25.

The candidate must have been a *bona fide* student of Science for a term of three years.

The candidate must further satisfy the Commissioners:

(*a*) That he has obtained, or can, within one month of election, obtain, an industrial post to be approved by them.

(*b*) That he is in need of pecuniary assistance to enable him to hold such a post.

A Bursar may, if the Commissioners approve, spend part of the tenure of his Bursary in studying industrial process or processes in works either at home or abroad.

No Bursar shall enter a firm as a premium pupil without the special consent of the Commissioners.

A Bursar must submit to the Commissioners, on the expiration of each year of his Bursary, a satisfactory report of his work from his employers.

[If and when a Bursary is allotted to Armstrong College a notice will be put on the notice boards.]

This Fellowship is of the value of £300.

It is awarded annually, and is tenable for one year. Under exceptional circumstances a successful candidate may be re-elected for a second year, but for no further period.

Candidates must be graduates of the University in Science or Commerce, who desire to pursue a further course of study or research either in England or abroad.

The Fellowship will be awarded on the result of such tests or under such conditions as the Council of the College may from time to time determine. The successful candidate will be required to submit for approval a scheme stating the kind of work in which he proposes to engage, and the place or places in which this is to be carried out. He will also be required to report from time to time as to the nature and progress of his work, and to submit, when requested to do so, a thesis on the subject selected, or such evidence of progress as the College may from time to time determine.

If there be two candidates of equal merit, the College shall have power to divide the emoluments of the Fellowship between them: but if in any year there be no candidate of sufficient merit, the Fellowship for that year shall not be awarded, and the income shall be added to the capital sum for the augmentation of the Fellowship in future.

Annual Charges, inclusive of Admission and Tuition Fees, and Fees for University (but not Matriculation) Examinations, *each on one occasion*; also Board, Lodging, Subscriptions and Gratuities, (but not Degree Fees or Laundry charges)	90 0 0

These charges are payable in three equal terminal instalments in the first week of Term.

Clergy, Married Students, and some others, are allowed to live in licensed lodgings, and to provide partially for themselves. In such cases the Caution Money and the charge for Terminal Battels (consisting of Luncheon and Dinner in the Hall), are reduced.

* This is a guarantee fund against loss by terminal defalcation, and is returned to a student when he leaves the University, if his debts to the College have been discharged.

BISHOP COSIN'S HALL.

This Hall was opened in October, 1851. The arrangements were nearly the same as in Bishop Hatfield's Hall. In Michaelmas Term, 1864, the Students then in residence were transferred partly to University College and partly to Bishop Hatfield's Hall.

ST. CHAD'S COLLEGE.

This College was opened in Michaelmas Term, 1904, as a licensed Hall of Residence for the reception of Students in Theology or Arts, but primarily for the training of Candidates for Holy Orders who are of limited means. It was constituted a College in 1919.

In the case of candidates of special ability who are wholly, or in part, unable to defray the fees of the University and of the College, the Council will, on the recommendation of the Principal, make grants of Exhibitions and Bursaries so far as the funds at their disposal admit. The following endowments are at present available for this purpose:—The "Douglas Horsfall" Exhibition of the value of £60 per annum, the "In Memoriam Capt. Robin Horsfall" Exhibition, the "Per Ardua ad Astra" Exhibition, each of the value of £100 per annum, the "William Jones" Bursary, the "Ellen Elizabeth" Bursary, the "Frank Tobin" Bursary, the "Moulsdale" Bursary, the "In Memoriam" Bursary, the "John Wakeford" Bursary, the "York" Bursary, the "James Marke Wood" Bursary, the "John Hedley Tuebrook" Bursary, the "Bishop King" Bursary, the "Clampitt" Bursary, and the "Sir Alfred Jones" Bursary, each of the value of £30 to £40 per annum. These endowments are generally allotted to Candidates for Holy Orders who are capable of reading for an Honours Degree.

There is also one College Fellowship of the value of £120 per annum at least, tenable by a graduate in honours.

ST. MARY'S COLLEGE.

This Hostel was opened in Easter Term, 1899, for the reception of Women Students in any Faculty except that of Theology. It was constituted a College in 1920.

Students of the College are classed under the various Professors, Tutors, and Lecturers, according to their qualifications and attainments, and are on the same footing as other students of the University.

All the Entrance Scholarships and Exhibitions in Arts offered by the Council of the Durham Colleges (see pp. 286–7) are open to women as well as men.

One Exhibition for women only is offered for competition at the October Matriculation Examination. The Winifred Foster Scholarship of £30 a year is awarded, when vacant, at the July Matriculation Examination to a woman candidate of limited means, partly on the result of the Examination and partly on School reports.

The above are tenable for one year in the first instance, after which they may be continued or discontinued, increased or diminished, according to the recommendations of the Examiners in the First Public Examination.

Lodging for a term, from £6 to £14;

Board (say) from £8 to £10.

Every Non-Collegiate Student pays to the University the ordinary terminal fee of £7, and is a member of all University Clubs and all Non-Collegiate Clubs without any further payment.

HOME STUDENTS (WOMEN).

Home Students were first admitted in Michaelmas Term, 1895.

Scholarships ranging in value from £30 to £70 can be competed for in June by Students who intend to work for Honours.

Three Exhibitions, value £20 each, can be obtained annually, either by men or women, on the result of the Matriculation Examination for Modern B.A. At the October Matriculation an additional Exhibition of £20, tenable by a woman only, is offered to candidates for Modern B.A.

[*] Up to June, 1904, students entering the College of Science (now Armstrong College) could obtain the title of A.Sc. (Associate of Science) by keeping two years as students in Science, and passing two examinations, one at the end of their first year, and one at the end of their second year. Such Associates were admitted to the degree of B.Sc. after the lapse of a third year, on passing a Final Examination, provided they had also passed the Preliminary Examination in Arts for Graduation in Science. The title was discontinued on the establishment of new Regulations for the degree of B.Sc. in 1904.

CODRINGTON COLLEGE,

BARBADOS.

This College was founded by Christopher Codrington, Captain-General of the Leeward Islands, and Fellow of All Souls' College, Oxford, who died in 1710. His estates in Barbados were left in trust to the Society for the Propagation of the Gospel, then lately incorporated, to found a College, with Professors and Scholars, who should study Divinity, Physic, and Chirurgery. The College was affiliated to the University of Durham in Easter Term, 1875, under regulations which are given at length in Title VIII. There are Scholarships of the aggregate value of about £300, three-fourths of which are for Theological Students.

FOURAH BAY COLLEGE,

SIERRA LEONE.

This College was founded by the Church Missionary Society in 1827 for the purpose of training Africans as schoolmasters, catechists, and clergymen. It supplies men for the Yoruba and the Niger Missions as well as for Sierra Leone and the neighbouring districts. In 1876 its scope was enlarged to allow the admission of other students, and it was affiliated to the University of Durham, under regulations which are given at length in Title VIII. In January 1918 the Wesleyan Missionary Society became associated with the C.M.S. in the control and work of the College, a Council representative of both Societies being called into being. A Scholarship is maintained by the members of the University in Durham to enable a student to obtain a University course in preparation for work in connexion with the Sierra Leone Native Church or the Missions of the Church Missionary Society in the dioceses of Sierra Leone or Western Equatorial Africa.

ALPHABETICAL LIST OF

MEMBERS OF THE UNIVERSITY.

The dates in the University Calendar are printed according to the registers of Matriculations, unless there is evidence of mistake or of bona fide change of name.

In the case of ordinary Graduates in the different Faculties, the date given in the following list is that of the Bachelor's degree, except for those who have graduated as Bachelor in M.D. as Practitioners in Medicine. In this case and in reference to Degrees by Diploma, Honorary Degrees and other titles, the date is that of the degree or title specified. Where degrees or titles in more than one Faculty or subject are specified, the date refers to that which is mentioned first.

The dates against Matriculated Students are in brackets in the central column, thus: (1915) Th., (1915) Mus., gives the date of Matriculation in Theology or Music respectively. An abbreviated date in brackets after Arms. or Med., thus: Arms. (15), Med. (15), gives the last date of appearance on the list of students for the year. Arms. (M), Med (M) mean that the Student has matriculated but has never appeared on the list of Students.

The [illegible] date is given. Degrees are Ad Eundem *or by Vote of* Convocation, *unless marked Honorary. In either case they will be found on the [illegible].*

SPECIAL REGULATIONS RESPECTING PERSONS ON MILITARY SERVICE.

Until further notice, in the case of students who have duly qualified for a degree in any Faculty and are unable to present themselves at Convocation owing to their absence on (Naval or) Military Service, the Proctors, upon the production of a certificate signed by an officer of the regiment to which the candidate is attached, will supplicate Convocation to confer upon such candidates their respective degrees "during their absence on Military Service." No additional fees will be payable in respect of such degrees.

Candidates for such degrees should send their full names, their certificates of having passed the examinations required and of having kept the necessary residence (if any) together with the Degree Fee and the certificate signed by an officer that they are upon Military Service, to the Senior Proctor, so as to reach him in good time before the day of Convocation.

In the case of Candidates for Honours who are upon Military Service, the terms during which they are absent will not be reckoned in computing the standing for Honours.

In the case of Medical Students, the time spent as assistant on Active Medical Service, Naval, or Military, not exceeding six months, will be allowed to count for the equivalent period of Hospital Practice. Of the time so spent, one half may be reckoned as equivalent to three months Medical Clinical Clerkship, and the other half as equivalent to three months Surgical Dressership.

Students of the Durham Colleges or of Armstrong College, who are absent on National Service, as defined above, will be exempted from residence to the extent of three terms, provided that, unless Senate shall otherwise determine, no student be

allowed to proceed to a degree with less than six terms' residence; except that a Pass student at Durham who has kept two terms and has been absent on National Service, may (provided his record in Collections is creditable) be excused the third term of residence as well as such part (or the whole) of the First Public Examination in Arts or Theology or the Intermediate Examination in Arts, as Council on the report of his teachers may decide. In the case of students at an associated Theological College, the report of their College Authorities will be accepted in lieu of that in Collections.

Pass students of Armstrong College in their first or second year who are absent on National Service, as defined above, may, on the report of the Teachers concerned, be recommended to Council for permission to proceed to the next year's course without further examination or residence; or they may be exempted from a portion of the next examination. In the case of First Year Students, at least one term of residence will be required. For pass students of Armstrong College in their final year, who have passed their first and second examinations, application may be made to Senate that they be allowed to proceed to their degree without further examination, if the Professors and Teachers concerned make special recommendation to that effect.

In the Pass Courses for the First and Second Years, Military Service may be accepted in lieu of the examinations in Military Science.

In the case of Honours students at Durham, a special note stating that they have been absent on National Service will be appended to their class lists and testamurs.

Honours students of Armstrong College may (at their option) either (*a*) be exempted from such portion of the Final Examination as shall be recommended by the Teachers concerned, or (*b*), if they have resided for not less than two years

and have passed their First and Second Year Examinations, they may, if the Professors and Teachers concerned make special recommendation to that effect, be allowed the ordinary degree without further residence or examination ; and such candidates may, if they so desire, offer themselves for examination for Honours at any time within three years from the termination of the War.

Members of the Durham Colleges who are holders of Scholarships or Exhibitions may, upon their return from National Service, resume the tenure of such Scholarships or Exhibitions.

In the case of members of the Durham Colleges no absentee fees will be payable in respect of terms during which they have been absent upon National Service.
